M4: 100% till dawn

ⓘ Special Note:

1. Do not install the lamp in places facing away from the sun, under the shadow, or between two buildings whose height is above the lamp. Otherwise, it will result in insufficient absorption from sunlight and insufficient working brightness and time.
2. Do not use the lamp in the environment temperature above 45°C or below 0°C, otherwise, it will cause the battery rapid attenuation and effect the battery lifetime, even damage.
3. Do not use non-standard accessories to install the lamp, otherwise, any caused accident will be borne by the installer.
4. Please charge the lamp not less than every 3 months to ensure the lithium battery activity.
5. If the product has been stored in the warehouse for more than one year, please do fully charge and discharge inspection and make sure the battery is in good condition. Otherwise, it is forbidden to use.

⚠ Warning:

1. Keep the device away from fire and oil to avoid any fire or explosion.
2. No one except professional technicians should attempt to disassemble the light to avoid damaging the light.
3. It is strictly forbidden to disassemble the battery for personal use.
4. If the lamp doesn't get charged for 3 days, the battery maybe out of power, please charge it under bright sunlight.
5. To ensure the lamp works in an ideal state for a long lifetime, please clean the solar panel regularly according to the local dust condition, it's suggested one time at least every 6 months.
6. Long time(over one year) static storage of the product will cause the inside battery damage or even leakage. When the battery leak, it will cause the battery ignite if suddenly charged by sun.

All NexSun products have a 3-year standard warranty on all manufacturing defects and 1-year warranty on all rechargeable batteries from the date of purchase. For extended 5 year warranty please visit <https://nightsearcher.co.uk/pages/warranty-information> proof of purchase is required. If at any time, you need to dispose of this product or parts of this product: please note that waste electrical products and batteries should not be disposed of with ordinary household waste. Recycle where facilities exist. Check with your local authority for recycling advice. Alternatively, NexSun is happy to take receipt of this product at end-of-life and will recycle it on your behalf.
