

Rear Warning Lights

DISTANCE SENSOR AUTOMATICALLY ADJUSTS FROM SPOT TO FLOOD BEAM

Automatically adjusts between long distance spot and close-range flood lighting, with rear safety lights and memory function. Built for outdoor, industrial, and emergency use.

- Reactive distance sensors for automatic beam adjustment based on proximity
- 180° beam angle adjustment for flexible lighting coverage
- Rear-facing red, blue, or green lights with flashing modes for visibility and safety
- Brightness memory function recalls last used mode and beam setting
- Integrated safety lock to prevent accidental activation during transport
- Adjustable, non-slip head strap for secure and comfortable fit
