Supplied with charging carry case, AC mains charger and vehicle charger.

Product weight	2.7kg
Product size	Pulsar: 34x110mm Ø Case: 380x70x370mm
NS Part No.	NSPULSARPROSQ-B/R/Y B = Blue R = Red Y = Yellow

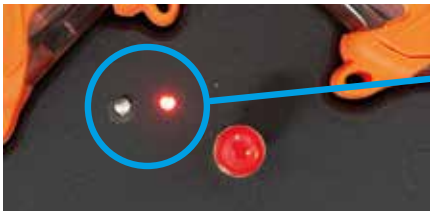

Battery charging:

Insert 1 to 5 Pulsars into the pockets in the charging case as shown below with the two battery icons lining up.

Case charging port

The pulsars can be charged using the supplied vehicle charger or AC mains charger.

- Battery charging indicator are located inside charging case next to red switch and inside the pulsar.
- Red = Charging in progress.
- Blue = Fully charged.

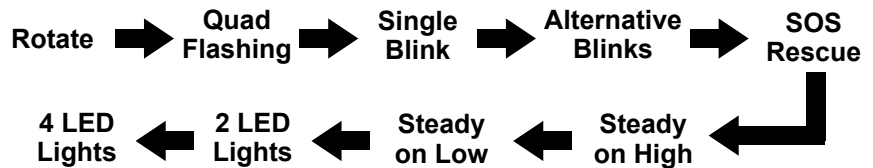

To close the case completely while charging the units, make sure the cable sits within the slot provided.

Operation:

Press the power button once to turn the light on.

Flashing modes: Press again to change and cycle through the 9 modes:

To turn off the warning light without cycling through the 9 light modes, press and hold the power button for 2 seconds. Two LEDs will flash five times and then turn off. When ready to operate again, press the power button once and it will return to the last flash mode that was selected before turning off

Sequential mode:

Make sure the charger is disconnected. Place all pulsars into case, press the red switch in the case once and sequential mode will commence, remove pods from case and they will continue to flash. To stop sequential mode replace all pulsars back into case and press red switch again.

The Sequential Pulsar Pro set of 5 are available in these colours:
