

NEW Galaxy Star

Powerful Robust Rechargeable LED Work Light

The Galaxy Star is a robust, portable, rechargeable work light made from extremely durable industrial strength aircraft grade aluminium and is impact-resistant to 1 metre. With a powerful 2800 lumen light output, choose from 5 output levels to ensure you have the brightness needed for any task. The work light weighs only 700g, which makes it the ideal portable work light, with a 180° foldable bracket/carry handle that helps position the light at an optimal angle.
