

Sequential Rechargeable Pulsar Pro

Set of Five LED Hazard Warning Lights

This sequential version of Pulsar Pro has the advantage of having a simplified sequential flash operating mode with a raised power button inside the case to activate the sequence instantly for quick deployment. This provides a 'flow' effect of light as each Pod flashes in turn, ideal for use on faster roads where a greater distance is needed between light units.

- Ideal for road side hazards, traffic control, signalling, hazard awareness and vehicle safety. Emergency Responders, Police, Fire and Highway Services.

OPTIONAL ACCESSORIES:

Cone Mount
SPPULSARMAG

Single Pulsar-AAA LED Hazard Warning Lights

The PULSAR-AAA is a multi-mode LED warning light within a shockproof housing, able to withstand crushing by weights of up to a tonne. These compact lights are designed for hazard awareness or signalling. They are extremely robust & waterproof, as well as being magnetic, so they can be attached to vehicles or other steel surfaces. Capable of operating for up to 240 hours dependant on chosen mode.

Fold away hanging hook

Crushproof - Up to 1 tonnes
